PROFESSIONAL SUMMARY

Business operations and customer support specialist with 5+ years of experience supporting global technology organizations, B2B partners, and cross-functional programs. Experienced in investigating operational issues, analyzing performance data, coordinating issue resolution, and improving support processes, documentation, and reporting. Brings direct Apple ecosystem experience, including customer technical support, policy enforcement, partner operations, stakeholder communications, and internal team education.

PROFESSIONAL EXPERIENCE

Logitech Inc. - Channel Partner Program Intern

June 2026 - Present | San Jose, CA

- Support global and regional channel partners by developing sales enablement tools, training resources, and program communications that improve readiness and adoption.
- Coordinate channel enablement initiatives from the central team supporting AP, LAT, IMEA, GCN, and EU stakeholders across multiple projects, working styles, and time zones.
- Assist with the execution of channel incentive programs, partner engagement campaigns, and go-to-market initiatives, coordinating requirements, timelines, and deliverables across stakeholders.
- Partner with Channel Account Managers and cross-functional teams to communicate timely updates on partner programs, product launches, business solutions, and sales resources.
- Create clear presentations, written communications, and process and program documentation to support partner education and consistent program execution.
- Coordinate enablement activities across internal teams and third-party agencies, tracking dependencies, resolving execution issues, and helping maintain delivery timelines.
- Monitor regional initiatives against global go-to-market strategies by tracking deadlines, stakeholder requirements, and program updates across multiple teams.
- Analyze business data and partner feedback to identify operational challenges, recommend process improvements, and strengthen the partner experience.
- Surface recurring partner questions and program issues to relevant stakeholders, helping improve support materials, communications, and future program execution.

California State University, East Bay - Marketing Intern

Dec 2025 – May 2026 | Hayward, CA

- Analyzed campaign and engagement data to identify performance trends and recommend improvements.
- Supported email, digital, event, and partner outreach programs through coordinated execution, follow-up communications, and workflow management.

Acer America Corp. - Marketing Program Specialist

Mar 2024 - Aug 2025 | Toronto, ON

- Served as a primary support contact for Canadian channel customers, coordinating program updates, business reviews, and resolution of operational issues.
- Investigated funding discrepancies, asset delays, compliance concerns, and execution roadblocks, coordinating cross-functionally to identify root causes and drive timely resolution.
- Monitored program performance and ROI, translating business data into clear reports and recommended actions for sales and leadership teams.
- Reviewed partner funding requirements and administered approved programs in compliance with budget, documentation, and reimbursement policies.
- Managed end-to-end program operations, including requirements, approvals, localization, resources, accounting coordination, and post-program reporting.
- Maintained process and program documentation while managing concurrent priorities across internationally based teams and time zones.

Compugen Inc. - Partner Marketing Specialist**2023 - 2024 | Toronto, ON**

- Served as the liaison among strategic technology partners, internal teams, project stakeholders, and delivery platforms, ensuring clear communication and coordinated issue resolution.
- Proactively identified execution risks, incomplete requirements, funding issues, and project roadblocks, coordinating required actions to maintain partner expectations.
- Managed milestones, dependencies, deliverables, meeting notes, and timelines in Asana to improve cross-functional visibility and accountability.
- Prepared status reports, partner communications, presentations, and escalation updates that clearly communicated issues, decisions, and next steps.
- Coordinated recurring partner support meetings, documented action items, and advocated for partner needs while maintaining alignment with business priorities.
- Developed guidance on internal tools, processes, and best practices to educate colleagues and partners and improve program adoption.

CDW Corp. - Partner Business Coordinator for Apple**2021 - 2023 | Toronto, ON**

- Served as the primary operational liaison between Apple and CDW teams, supporting Apple ecosystem priorities across digital programs, partner engagements, and customer-facing initiatives.
- Collaborated with Apple Marcom, Marketing, Product Management, Finance, eCommerce, and sales teams to coordinate requirements, approvals, timelines, and issue resolution.
- Protected the Apple customer experience by reviewing messaging, creative assets, product information, and campaign materials for compliance with Apple branding and policy standards.
- Investigated issues involving funding, approvals, contracts, invoicing, partner portals, and program execution, coordinating stakeholders through resolution.
- Monitored Apple programs and vendor engagements, providing status reports, funding analysis, and recommendations that surfaced risks and supported business decisions.
- Developed process documentation, guidance, and internal communications to educate supported teams on Apple tools, policies, brand requirements, and approval processes.

Apple Inc. - Technical Specialist/ Technical Expert**2017 - 2021 | Toronto, ON**

- Delivered customer-focused technical support for Apple hardware, software, products, and services in a high-volume retail support environment.
- Investigated, diagnosed, and resolved technical issues using Apple troubleshooting procedures, diagnostic tools, and internal support resources.
- Clearly communicated technical findings, repair options, service recommendations, and next steps to customers with varying levels of technical knowledge.
- Identified recurring service concerns and provided feedback to team leaders to support issue escalation and improvements to the customer experience.
- Educated customers and team members on Apple products, services, tools, repair processes, and technical best practices.
- Balanced multiple customer cases and operational priorities while maintaining accuracy, empathy, confidentiality, and adherence to Apple policies.
